COURSE DESIGN AND AIM

This seminar is designed for registered nurses keen to improve their knowledge and understanding of retinal disorders. The seminar will have a strong emphasis on current evidence based practice and clinical reasoning in the treatment planning of retinal disorders. Participants will be provided opportunities to develop their clinical knowledge and application to practice.

SEMINAR TOPICS

- Anatomy & Physiology of the visual pathway
- Medical Retina (AMD, Diabetic Retinopathy)
- Vitreo-retinal Surgery – latest techniques
- Implications of Intravitreal Treatments
- Care of the retinal patient
- Clinical investigations of retinal disease: OCT theory/practice
